RE-TIME SERUM

RECOGNIZED BY AESTHETIC EXPERTS

“ The RE-TIME SERUM is an essential product that I recommend for my patients to complement all aesthetic medical treatments. This perfect combined solution of vitamin A, hyaluronic acid, wakame and polypeptides ensures that fibroblast stimulation and cell regeneration are maximized, not only during the procedure, but also during the pre- and post procedure periods. This is also the first retinol-based serum that I can safely give to all skin types.
